

EstheticianEDU.org Recognizes Bellus Academy for Offering One of Best NACCAS-Accredited Esthetics Programs of 2019-20

With more than 600 NACCAS-accredited cosmetology schools offering esthetics programs coast to coast, plenty more unaccredited options, and new schools opening up all the time, the team at EstheticianEDU.org felt it was time to begin the work of narrowing down the options and identifying the best ones out there. Any program that gives you enough training hours to meet state board requirements for licensing may be good enough to get your career started, but it takes a lot more than that to be good enough for our list.

In a profession that relies largely on referrals from satisfied customers, reputation means everything in the skincare industry. And as anyone in the field can tell you, the best way to make a name for yourself is by going the extra mile to provide the kind of personalized attention that makes every single client look and feel their best. It's that same kind of commitment and care to the individual that makes an esthetics program stand out from the crowd, so that's exactly what we looked for when making our selections for the best programs in each state.

When we came to the Bellus Academy esthetics program in Manhattan, Kansas, it was clear we were looking at something special. With an illustrious list of awards in recent years, a curriculum that blends the best techniques used in European and American spas, and the ability to custom tailor your training with advanced esthetics courses, the Bellus Academy esthetics program easily earns its place among The Best Esthetics Programs of 2019-20!
