

ADVANCED COSMETOLOGY HYBRID

SOC Code 39.5012

Method of Delivery: Hybrid

The Advanced Cosmetology Hybrid program is a 1500-hour course of instruction designed to develop advanced-level technical proficiency, increased practical experience and career-advancement skills within the field of barbering. This program includes the 1000 hours required for California Board of Barbering and Cosmetology licensure and an additional 500 hours of expanded training focused on skill refinement, service efficiency and professional growth. The program length for the Day Schedule is 43 weeks, and the Evening Schedule is 60 weeks. Students receive comprehensive training through the Bellus Academy Cut and Color system, with an emphasis on increased hands-on application, advanced service techniques, and higher-volume practical experience in both classroom and clinic environments. The additional training hours are concentrated in key service areas such as haircutting, hairstyling, and chemical services, allowing students to build greater confidence, speed and consistency in real-world scenarios. The program also includes expanded instruction in: Advanced client consultation and customization; Business development and performance tracking; Marketing strategies and client retention; and Financial literacy and career planning. Through increased practical application and advanced instruction, students develop the ability to perform services with a higher level of precision, efficiency and professionalism. This program may benefit individuals seeking to strengthen their technical skill set, increase hands-on experience, or advance their career readiness beyond entry-level training.

COURSE OBJECTIVES:

The program is designed to prepare students to:

1. Meet and exceed entry-level performance expectations in a salon environment.
2. Perform a higher volume of services with increased technical confidence
3. Expand service offerings and enhance client experience
4. Pursue career advancement opportunities within the cosmetology industry.

METHODS OF INSTRUCTION SHALL INCLUDE:

1. Lecture
2. Teaching aids
3. Testing (oral/written)
5. Video
6. Demonstration
7. Role-Play
8. Online Theory using hardware and software to access content

GRADING POLICY:

Bellus Academy's course provides education and training in the areas associated with skills needed to graduate that are measured by course objectives. The academy offers theory instruction in both an asynchronous (progress is virtually tracked and monitored by an instructor that engages with the student on an individual basis) and synchronous (students and instructors interact with specified start and end times) distance education formats using electronic media. These delivery methods via distance education provide the same training as in a residential format. The school maintains complete records on each student or graduate for reference as required by the State. All students receive a complete theory and practical test after each section of the program has been completed. Individual tutoring, if needed, is available in preparation for the state exam. Grading to evaluate learning objectives via distance education theory is primarily through tests. Each student is graded on their theory and practical work, attendance, appearance, and attitude. The grading used is as follows:

93 – 100	EXCELLENT
85 – 92	VERY GOOD
75 – 84	SATISFACTORY
74 and BELOW	UNSATISFACTORY

Written progress reports are maintained by the academy. Students receive progress reports that must be signed and kept in their file at least two (2) times during their program that provide feedback on learning course objectives, that include participation in asynchronous and synchronous distance education, as applicable to the student. Informal progress reports are available on the Bellus App so students can keep track of their progress. Additional progress reports may be issued to students as requested or on an as needed basis determined by the instructor.
